MÚSCULOS DO PESCOÇO

Platysma

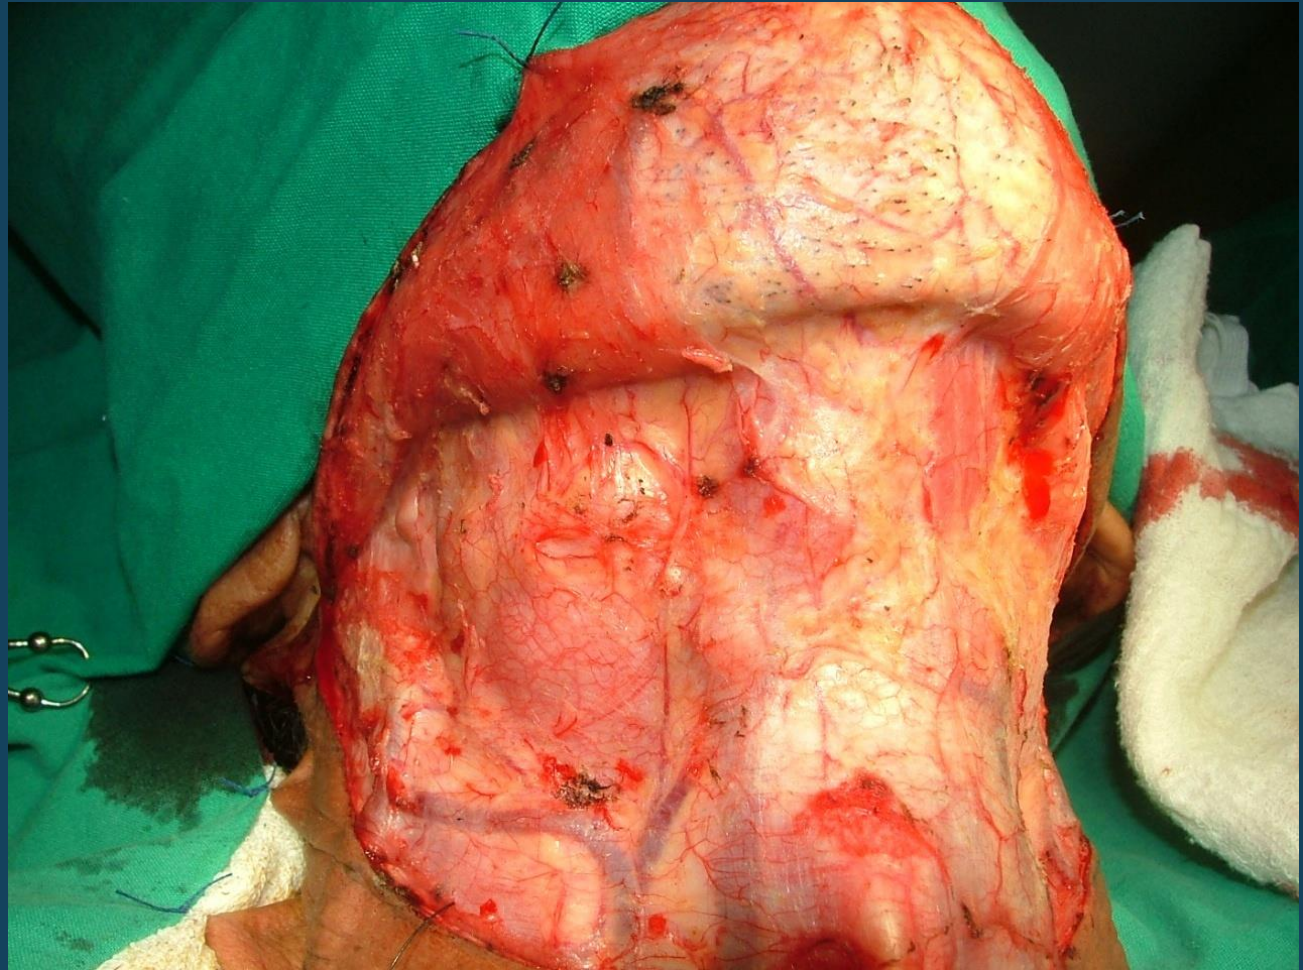

**Inervação: Ramo cervical
do nervo facial**

MÚSCULOS DO PESCOÇO

Platisma

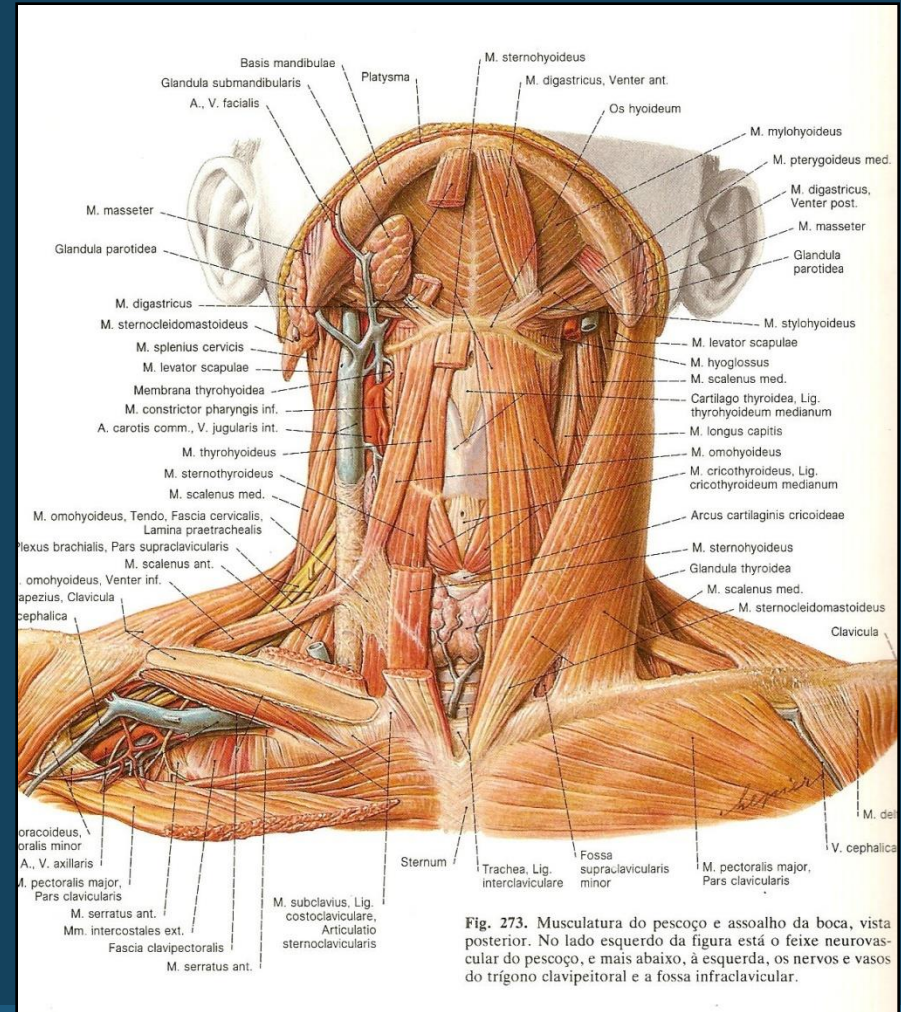

MÚSCULOS DO PESCOÇO (SUPRA-HIÓIDEOS)

Digástrico

Inervação

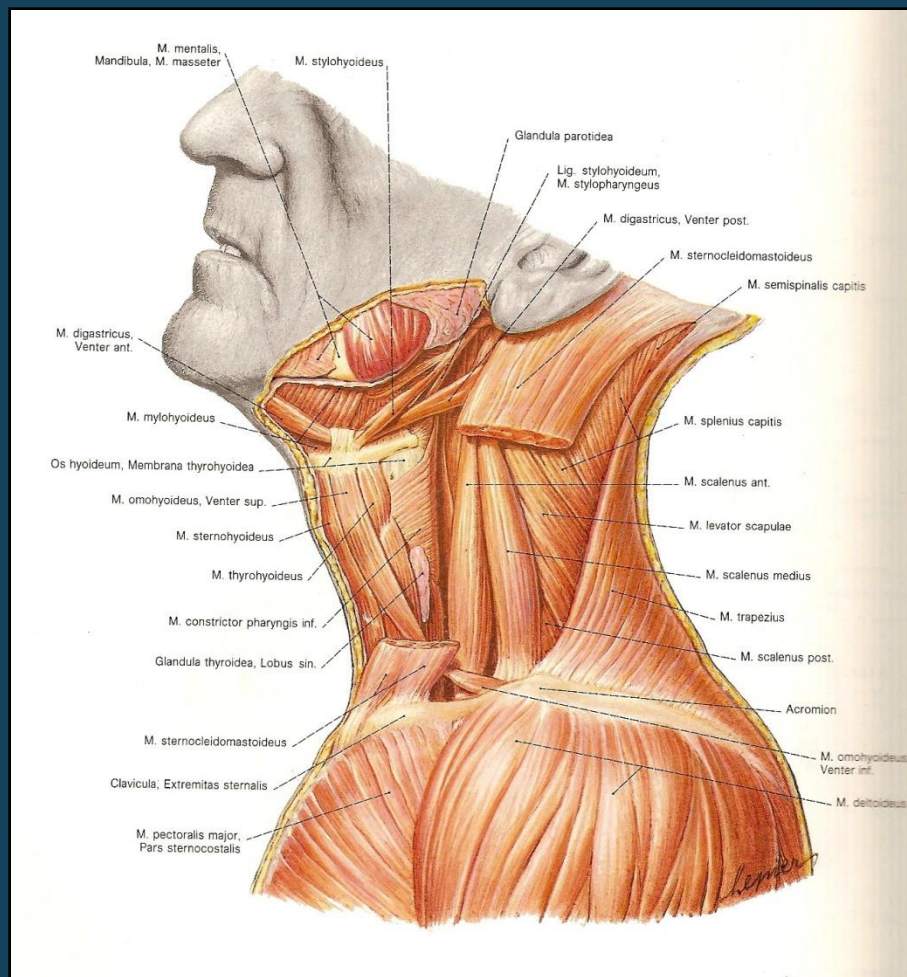

Ventre anterior:	Nervo alveolar inferior
Ventre posterior:	Nervo facial

MÚSCULOS DO PESCOÇO (SUPRA-HIÓIDEOS)

Estilo-hióideo

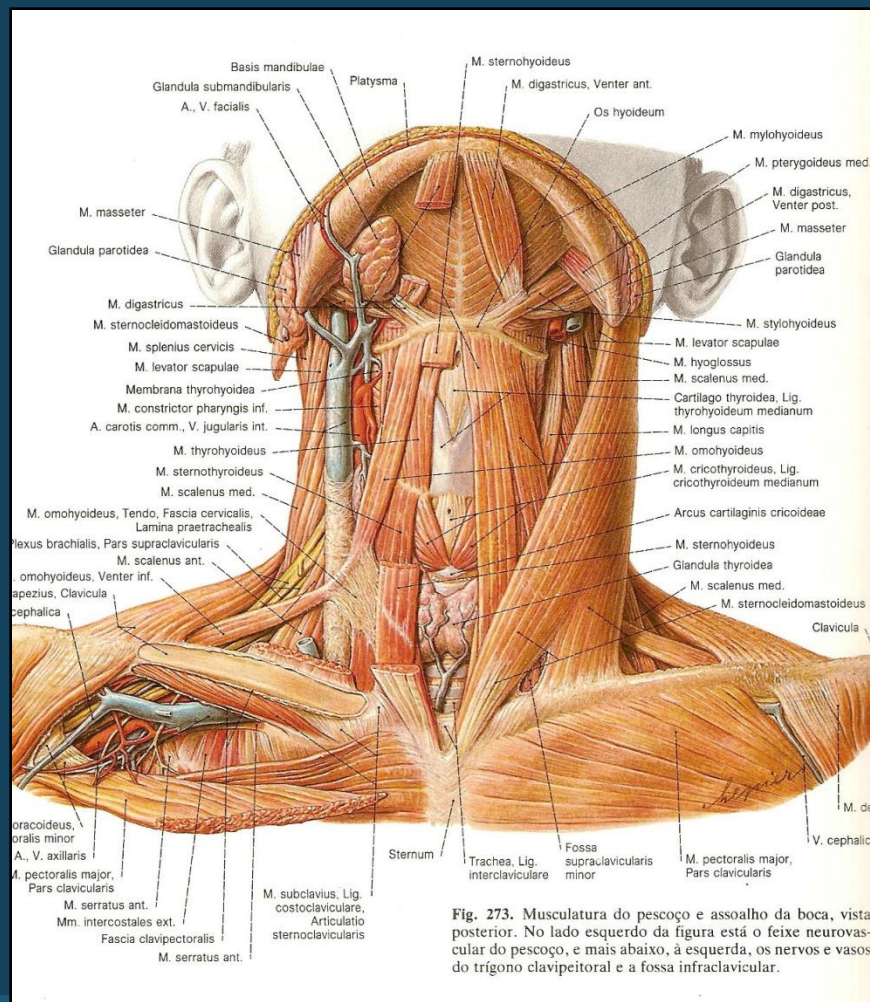

Inervação: Nervo facial

MÚSCULOS DO PESCOÇO (SUPRA-HIÓIDEOS)

Milo-hióideo

Inervação: Alveolar inferior

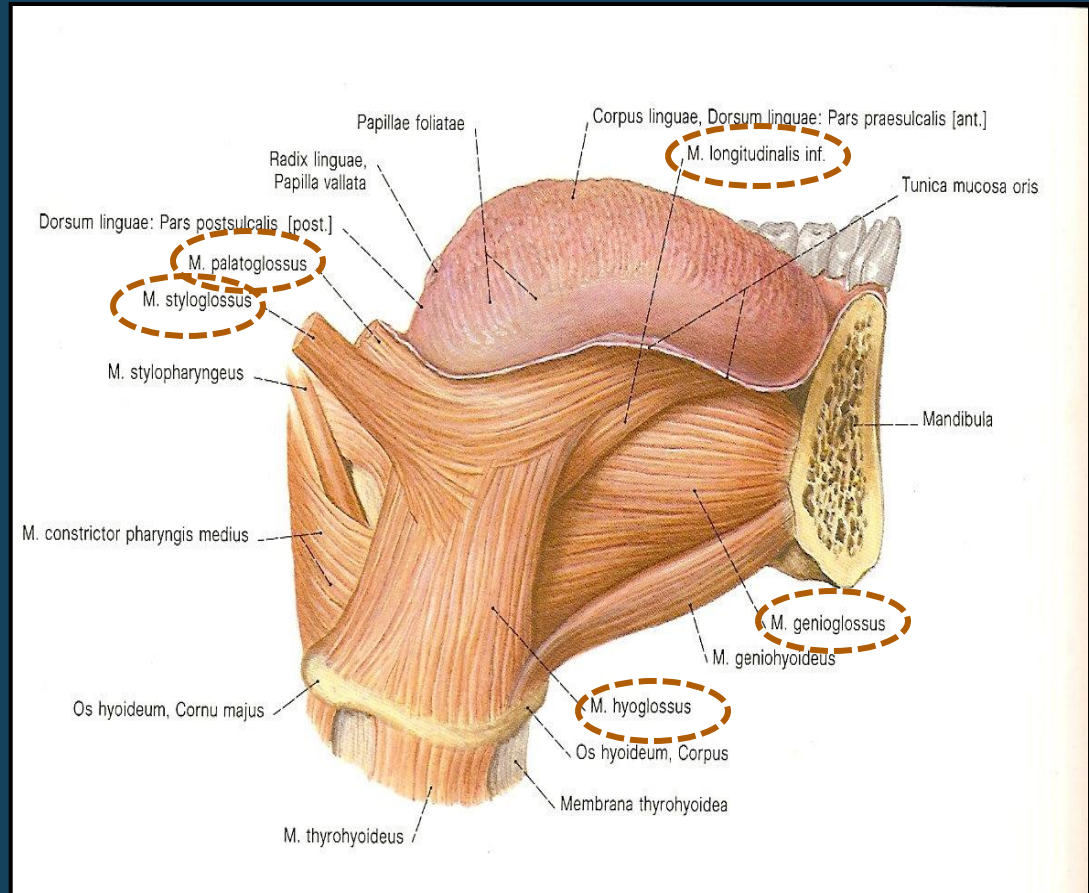

MÚSCULOS DO PESCOÇO

Gênio-Hióideo

Inervação: Hipoglosso

MÚSCULOS DO PESCOÇO (INFRA-HIÓIDEOS)

Homo hióideo

Esterno-hióideo

Esternotireóideo

Tireo-hióideo

Inervação: Hipoglosso

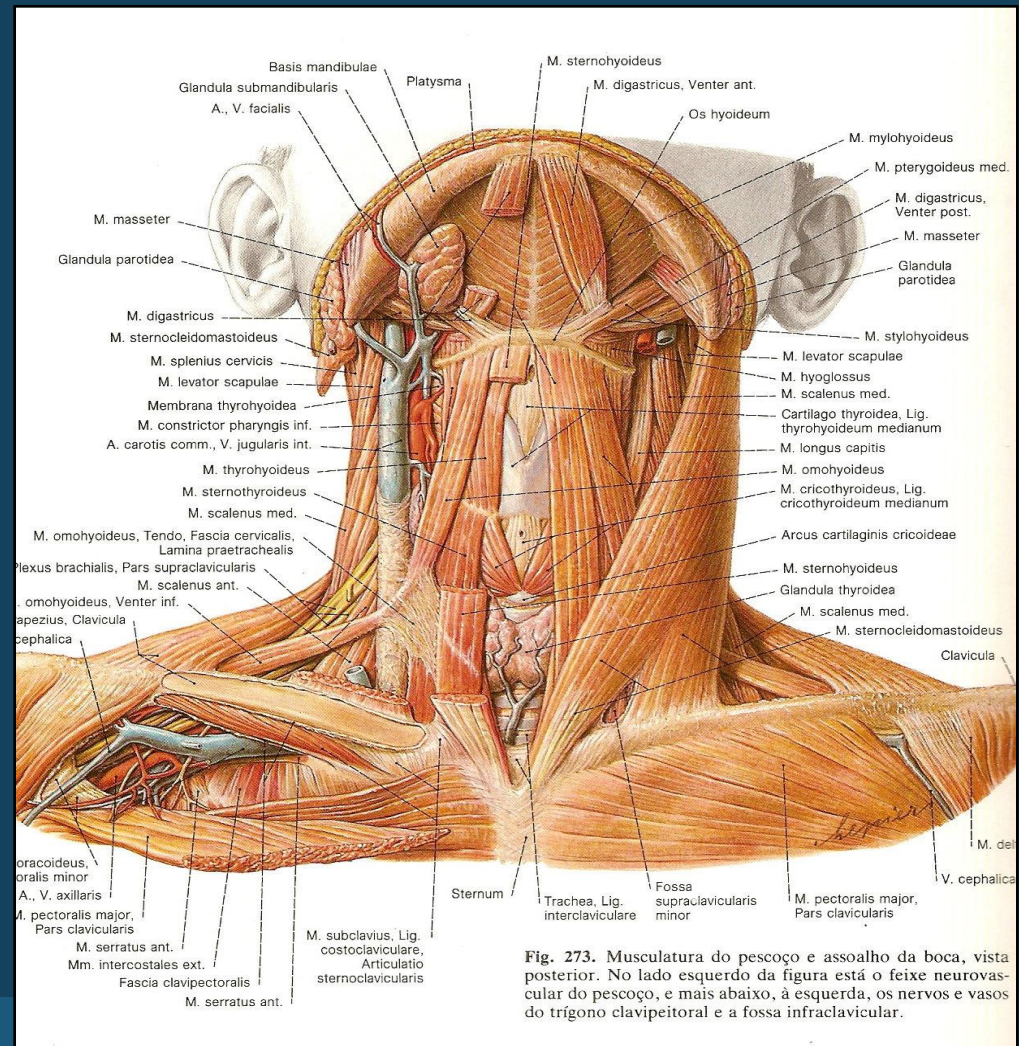

Fig. 273. Musculatura do pescoço e assoalho da boca, vista posterior. No lado esquerdo da figura está o feixe neurovascular do pescoço, e mais abaixo, à esquerda, os nervos e vasos do trígono clavipectoral e a fossa infraclavicular.

MÚSCULOS DO PESCOÇO (LATERAL)

Esternocleidomastóideo

Inervação:

**Acessório e plexo cervical
(C2 e C3)**

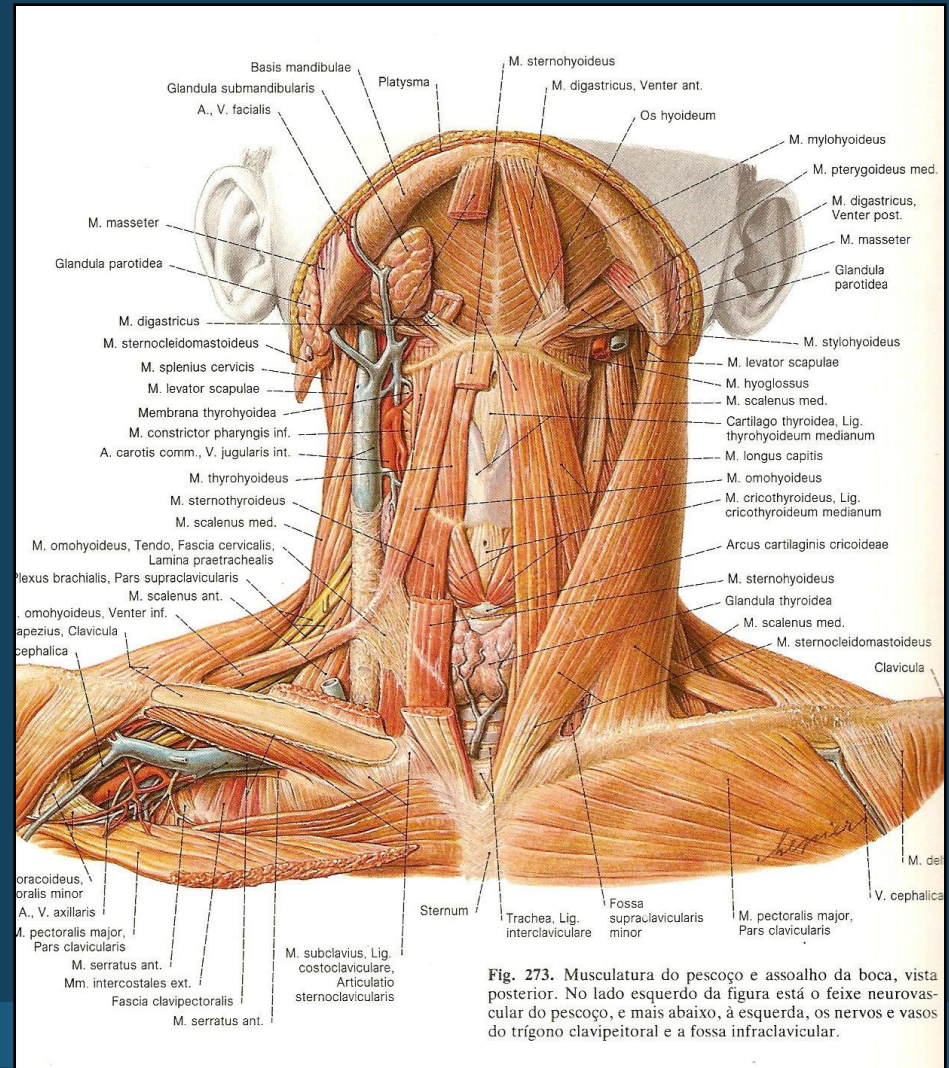

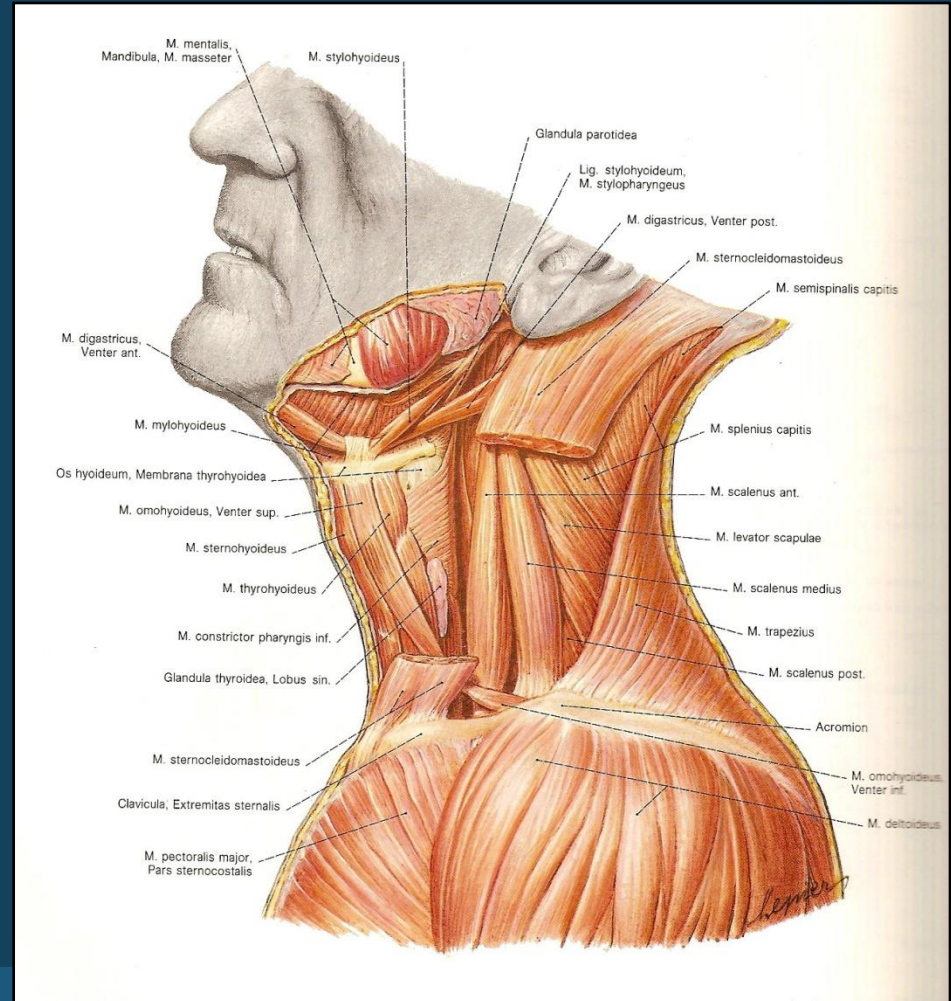

Fig. 273. Musculatura do pescoço e assoalho da boca, vista posterior. No lado esquerdo da figura está o feixe neurovascular do pescoço, e mais abaixo, à esquerda, os nervos e vasos do triângulo clavipectoral e a fossa infraclavicular.

MÚSCULOS DO PESCOÇO (LATERAL)

Escalenos

Inervação:

Plexo cervical (C3 a C6)

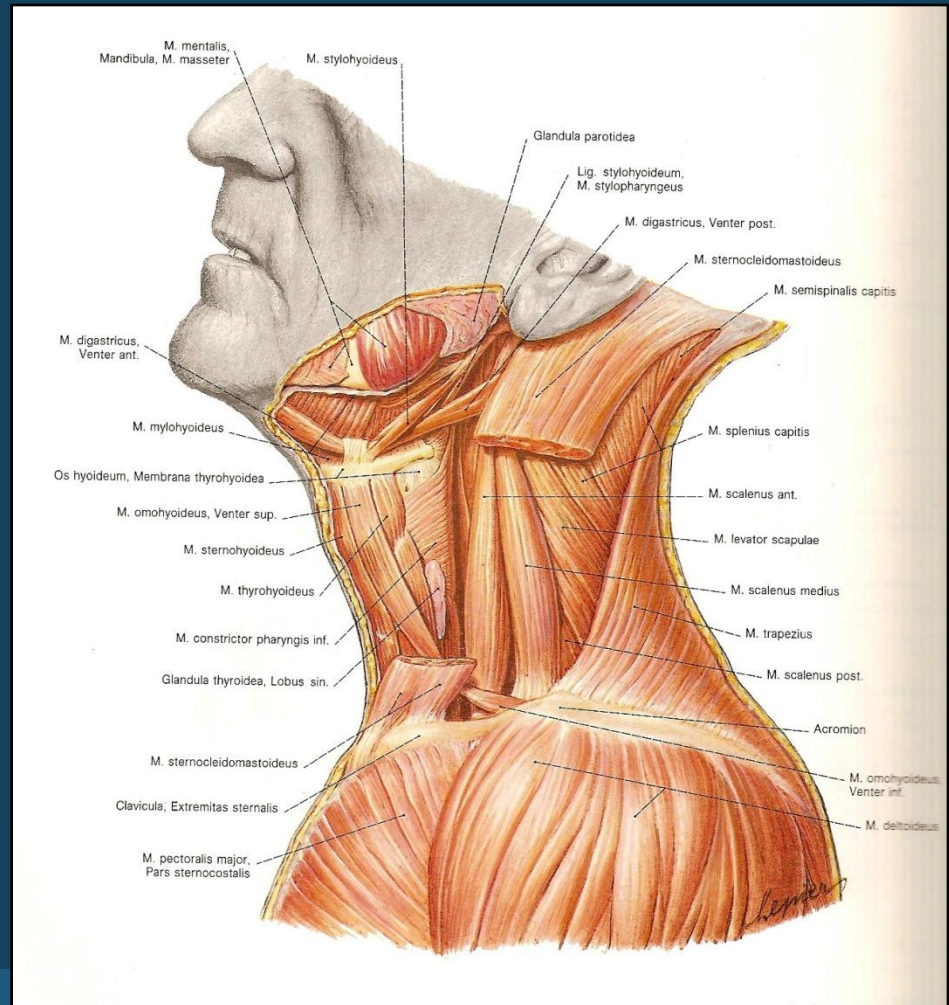

MÚSCULOS DO PESCOÇO (POSTERIOR)

Trapézio

Inervação:

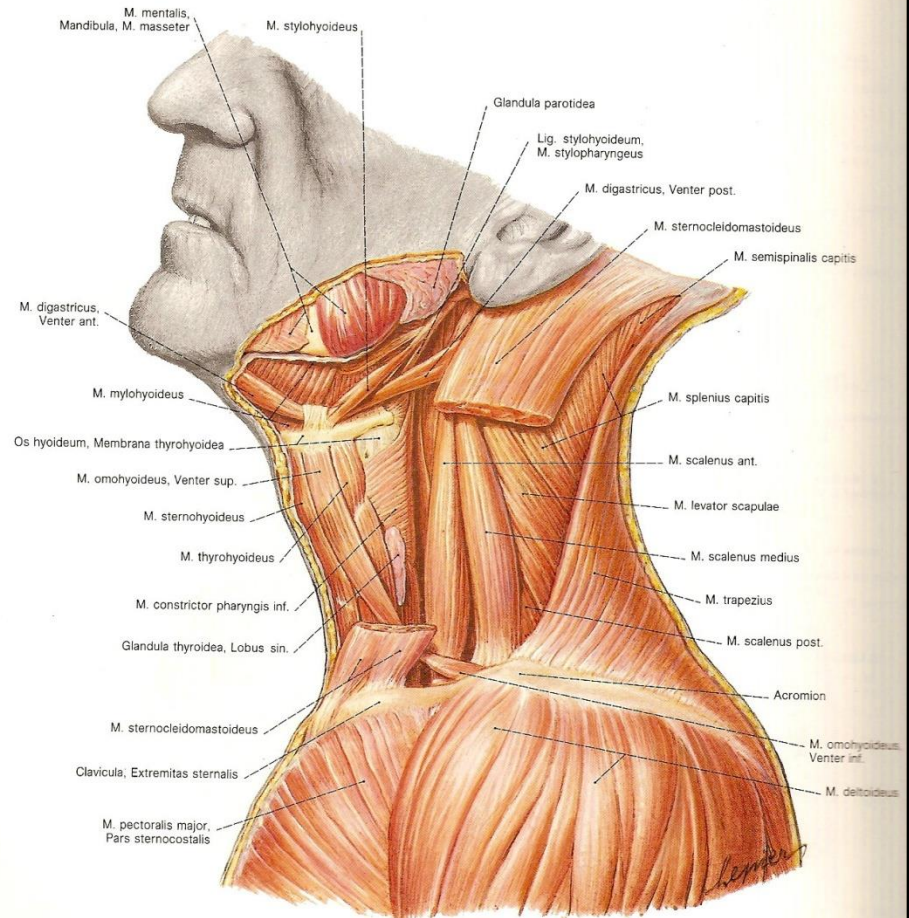

Nervo acessório e Plexo cervical (C3 e C4)

MÚSCULOS DO PESCOÇO (POSTERIOR)

Levantador da escápula

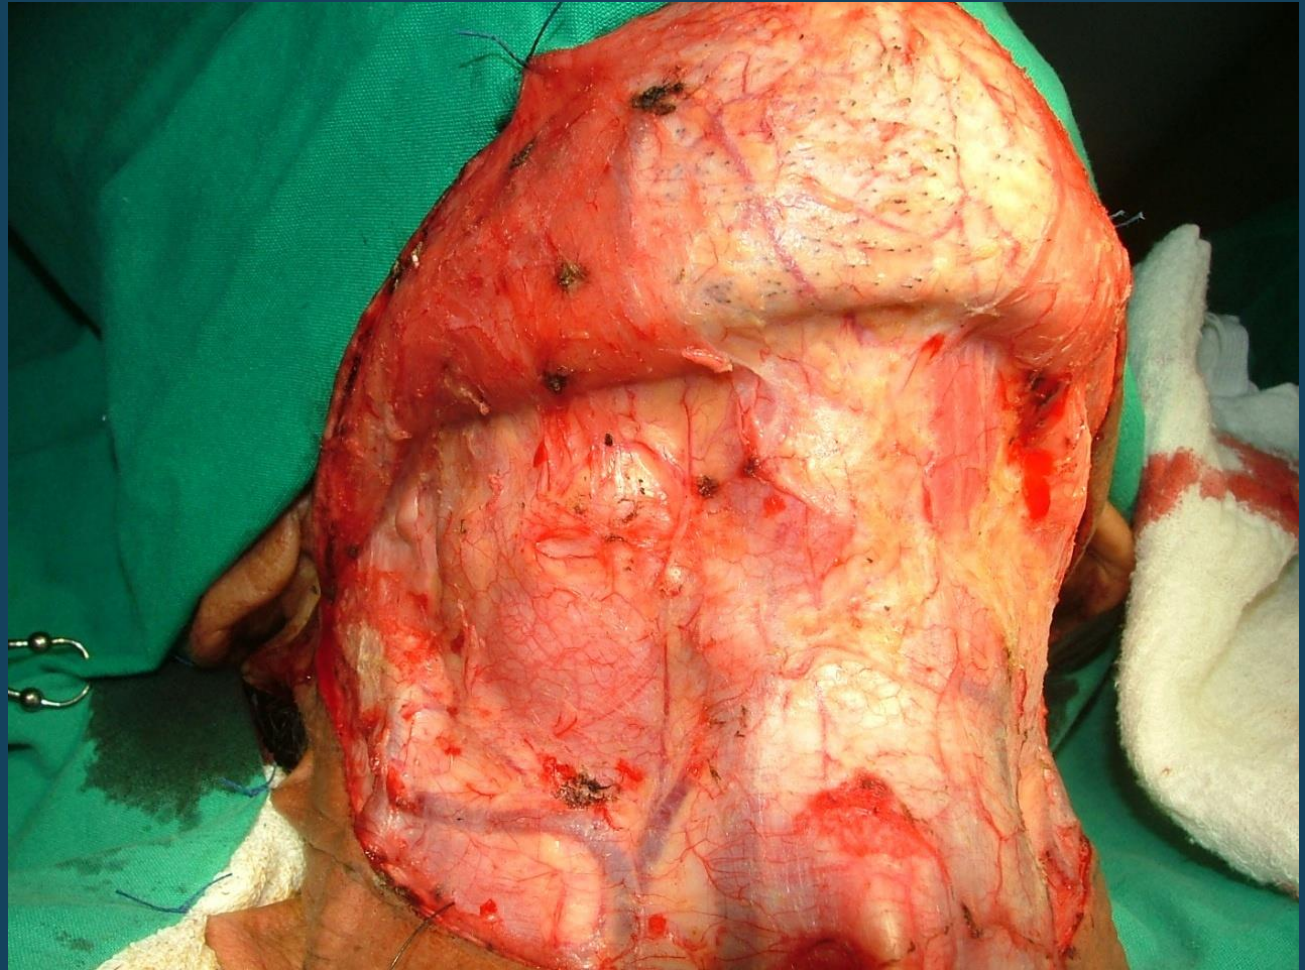

Esplênios da cabeça
